

DVD/CD Carousel - Intelligent

Cat No. 6303

Product Overview:

Do you spend a lot of time finding your CDs and DVDs? This CD Library will help you to store your CDs and DVDs in a safe place so that you won't miss them any more.

The CD Library stores up to 150 CDs or DVDs in each box via a USB interface. The CD Library can be connected to up to 128 units for maximum total of 19,200 CDs. Users may decide how many CD Libraries need to be connected, depending on how many CDs need to be managed. The CD Library is designed in a streamlined round enclosure and comes with a LCD display that can help you pick out the right CD accurately within 3 seconds. The user-friendly software that is provided with the CD Library helps you to manage your CDs and DVDs. You can search within the software and find the CDs by CD titles, CD contents, categories, remarks/notes etc. After searching within the program, just simply double click your selection on the screen and the CD Library will simply spin and eject the CD.

Features:

- Easy and Simple operation
- Located CDs and DVDs fast and accurately
- Powerful management software included
- Stackable design for saving space
- Lock and keys provided for added security
- Manual CD/DVD selection function
- One port USB Hub included
